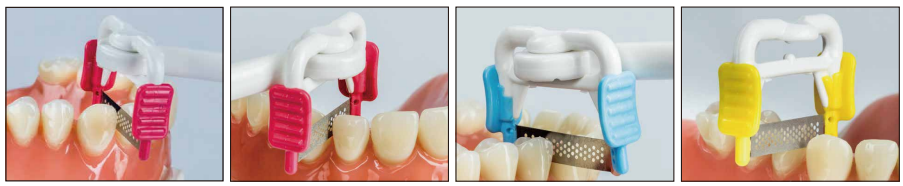
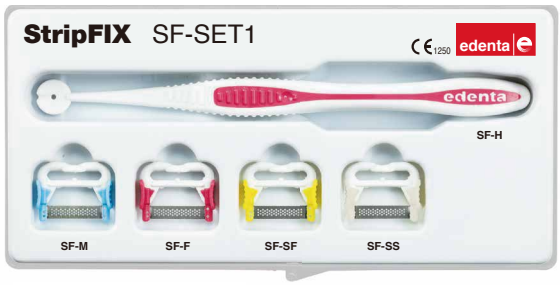
HH-903 Ultra Fine (dia.1.5 mm) Dark Green	£5.95	£35.00

EDENTA DIAMOND FINISHING STRIPS



StripFIX finishing strip system (handle for diamond strip holder with click-plug system)
Different diamond strip holders are available, which are simply clamped between the fingers and make working in the mouth extremely difficult because of the space availability. The newly developed StripFIX finishing strip system makes working with diamond strips easier and more controlled. A user-friendly, ergonomic handle with special grip recess ensures enhanced control for reliable use of the StripFIX finishing system. The click-plug system enables easy, quick replacement of the diamond strip holders. The swivel-mounted diamond strip holders can each be locked in 4 positions. This ensures that the optimum working position (angle) of the diamond strip is fixed to enable easy access to the anterior and posterior teeth in the oral cavity. All components of the StripFIX finishing system are autoclavable and re-usable.



Application

Used for removing cement after cementation of crowns, bridges, inlays, onlays or veneers. Used for finishing and polishing interproximal fillings and for removing excess filling material. For dental hygienists to enable removal of discoloration that cannot be accessed with their instruments. In interproximal reduction (IPR), used for reducing interproximal enamel during orthodontic procedures.

StripFIX SET Contains one handle with special grip recess and 4 diamond strip holders.

StripFIX Finishing Strip System	
SF-SET 1 Complete Set	£59.95
SF-H StripFIX Holders, 2 pcs/pack	£39.95

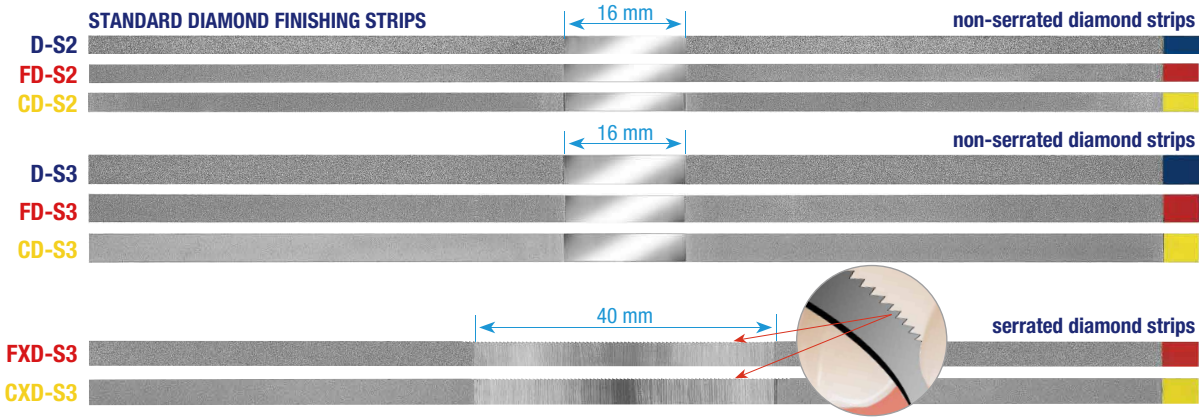
EDENTA AUTOCLAVABLE DIAMOND FINISHING STRIPS SINGLE SIDE COATED



Applications

- For contouring the proximal regions of all types of fillings
- Removing excess material from the proximal regions of filling - materials like composites, acrylics, glass ionomer cements and amalgam
- Removing excess cement after placing inlays, onlays and laminate veneers

Advantages

- Contours the proximal regions anatomically, Length: 147 mm
- Simplifies working procedures through the serrated edge which separates interdental spaces quickly
- The serrated diamond strips have wider non - diamond coated area, which simplifies sawing
- Serrated sawing edge and diamond - coated abrasive area combined in one instrument simplifies working procedures
- Made of highly stable stainless steel to resist breaking and stretching, for an economical service life

1 We have designed the shape of our handle to be smaller and practical in size , so that it uses up to 65% less plastic than some leading brands

2 Instead of using new plastic, we use 100% recycled plastic for the brush handle and 50% recycled plastic for the protective cap. This recycled plastic is made using waste materials left over from other manufacturing processes.

3 Unlike some other brands who package interdental brushes in unnecessarily large plastic boxes and bags , we use a cardboard box which is 100% plastic free. This means the box is easily recyclable

Greenline bamboo cups

Looking to cut down on plastic use? Switching to bamboo cups is a simple and easy change that can have a big impact on reducing plastic waste in your surgery. Here are some reasons to make the switch to using bamboo:

1 Bamboo is the world's quickest growing plant and provides a sustainable source of material. When bamboo is cut down to make paper, it is able to quickly recover to be harvested again.

2 Bamboo absorbs a large amount of CO^2 emissions as it grows, which helps to offset human carbon emissions.

3 Our Greenline outer carton is 100% recyclable.

- Leakproof construction, non-slip design
- Dispenses easily from cup dispenser due to their rolled lip
- Conveniently designed 170ml (6oz) size

Bamboo Cups 170 ml (6oz), 1000 pcs/box
Blank £25.95
Healthy Teeth (4 assorted designs) ... £26.95

HOLLOW HANDLE micro applicators

In an effort to limit the environmental effect of one of the most used items in a dental surgery we came up with some great ideas:

- **Bends into any angle for the placement of small controlled amounts of material in limited access areas.**
- **Economical - saving up to 80% by the reduction of excess materials used.**

Hollow Handle Micro Applicators	*100 pcs box*	*10 x 100 pcs box*
(Length 100 mm, dia 3 mm handles)		
HH-901 Regular (dia. 2.5 mm) Light Green	*£5.95*	*£35.00*
HH-902 Fine (dia. 2 mm) Medium Green	*£5.95*	*£35.00*
HH-903 Ultra Fine (dia. 1.5 mm) Dark Green	*£5.95*	*£35.00*

1. 45% less plastic used in each hollow handle applicator than our standard micro applicator, due to the hollow design of the handle.
2. Instead of using new plastic, we use 100% recycled plastic for the brush tip and 50% recycled plastic for the hollow handle. This recycled plastic is made using waste materials left over from our other manufacturing processes.
3. No more plastic tube that can use up to a third of the amount of plastic as the actual product - just a 100% recyclable box.

mini micro applicators

In an effort to limit the environmental effect of one of the most used items in a dental surgery we came up with some great ideas:

- **Bends into any angle for the placement of small controlled amounts of material in limited access areas.**
- **Economical - saving up to 80% by the reduction of excess materials used.**

Mini Micro Applicators	*100 pcs box*	*10 x 100 pcs box*
(Length 85 mm, dia 2.5 mm handles)		
G-9901 Regular (dia. 2.5 mm) Light Green	*£3.95*	*£24.00*
G-9902 Fine (dia. 2 mm) Medium Green	*£3.95*	*£24.00*
G-9903 Ultra Fine (dia. 1.5 mm) Dark Green	*£3.95*	*£24.00*

1. We designed the handle to be a smaller, more practical size that reduces the amount of plastic used by 50% in comparison to our standard micro applicators.
2. Instead of new plastic, we used 100% recycled plastic. This recycled plastic is made using waste materials from our other manufacturing processes.
3. No more plastic tube that can use up to a third of the amount of plastic as the actual product - just a 100% recyclable box.

micro applicator tips

Our most environmentally friendly micro applicators:

- **For the placement of small controlled amounts of material in limited access areas.**
- **Economical - saving up to 80% by the reduction of excess materials used.**

Greenline Micro Applicator Tips	*100 pcs box*	*10 x 100 pcs box*
G-921 Regular (dia. 2.5 mm) Light Green	*£2.15*	*£12.50*
G-922 Fine (dia. 2 mm) Medium Green	*£2.15*	*£12.50*
Autoclavable Micro Applicator Tip Handle	*each*	*10 +*
7502W White	*£2.15*	*£1.25*
7502T Transparent	*£2.95*	*£1.45*

1. By using a micro applicator tip with a reusable handle, you can reduce the amount the plastic that you would normally use by 80% when compared to a standard micro applicator.
2. Using an autoclavable handle saves plastic. Clean it, autoclave it and re-use it. Simple and effective.
3. Our micro applicator tips are packaged in a 100% recyclable cardboard box. Recycling can prevent pollution by reducing the need to collect new raw materials.
4. Instead of using new plastic for the micro applicator tips, we use 100% recycled plastic. The recycled plastic is made using waste materials from our other manufacturing processes.

Greenline air-water syringe tips

Reusable products are a great idea. Unfortunately, trying to clean the inside of a reusable metal air-water syringe tip is just not possible and if you can't clean it, you can't guarantee the effectiveness of its sterilisation. This means that using a disposable plastic air-water syringe tip is the only way to guarantee avoiding cross contamination.

1 Our Greenline air-water syringe tips are made from 100% recycled plastic, using waste materials left over from other manufacturing processes.

2 The Greenline air-water syringe tips are packaged in 100% recyclable cardboard boxes, instead of large plastic bags, helping to reduce the amount of plastic packaging in your surgery.

Greenline Air-water Syringe Tips	*200 pcs/box*	*10 x 200 pcs/box*
G018 (American Type)	*£29.95*	*£165.00*

CONTINU HAND SOAP & SANITISER FOAM

- At last an alcohol free disinfection solution that can be used safely on skin without causing dryness or irritation
- Users say that Continu has a conditioning effect even with constant use
- Some customers have also reported that after using Continu, dermatitis and other skin conditions have diminished
- Continu hand sanitisers are available either as a disinfectant foam for use without water between patients or as an antimicrobial soap for surgical scrubs and to clean hands between sessions

NU008 Anti Microbial Hand Santising Foam 600 ml ... £6.45 pack
NU009 Anti Microbial Hand Santising Soap 600 ml .... £6.95 pack
NU014 Wall mounted Bracket for above £20.95

CONTINU DISINFECTANT FOR DENTAL UNIT WATER LINES

- HTM 01-05 states that, "no currently available single method or device will completely eliminate biocontamination of dental unit water lines or exclude the risk of cross-infection"
- CE marked for use with medical appliances, Continu Disinfectant for Dental Unit Water Lines is highly effective at eliminating biofilm to achieve long term reduction in microbial contamination
- Yet, being water based, it is very gentle, making it harmless to water lines and safe for patients
- As the disinfectant only needs to be applied weekly, it saves staff time and provides a cost effective solution
- Available in one litre bottles or economic and environmentally friendly five litre refills

NU016 Refill 5 litres .... £24.95 bottle

CONTINU HAND SOAP & SANITISER FOAM POUCHES

- For hand washing, HTM 01-05 requires that "wall mounted liquid hand wash dispensers with disposable cartridges should be used ... Refillable hand wash containers should not be used"
- Continu alcohol free antimicrobial hand wash and sanitising foam products are available in sealed disposable cartridges and wall mounted dispensers to comply with HTM 01-05 but unlike alcohol based alternatives they are very kind to skin
- The wall mounted touch free unit is particularly economical as it dispenses 0.4 ml each time it is used so a single one litre pouch provides 2,500 applications.

NU025 Hand Foam Pouch for Dispenser 800 ml ... £8.95 pack
NU012 Hand Foam Pouch for Dispenser 1 litre ..... £9.95 pack
NU026 Hand Wash Pouch for Dispenser 800 ml .... £9.95 pack
NU013 Hand Wash Pouch for Dispenser 1 litre .... £10.95 pack

CONTINU SURFACE CLEANER and DISINFECTANT

- Continu complies with the HTM 01-05 requirement to clean surfaces with a suitable detergent
- The surface cleaner offers a 2 in 1 solution that removes dirt or grease whilst disinfecting the treated area to ensure surfaces are clean as well as decontaminated
- Available in 750 ml trigger spray containers or impregnated wipes
- For a more cost-effective and environmentally friendly solution, refills are available for all Continu wipes and sprays

NU002 2 IN 1 Surface Cleaning & Disinfectant Wipes 200's ..... £6.95 cannister
NU004 x 2 IN 1 Surface Cleaning & Disinfectant Wipe Refill 200's . £5.95 cannister
NU006 2 IN 1 Surface Cleaning & Disinfectant Spray 750 ml ..... £6.95 bottle
NU007 2 IN 1 Surface Cleaning & Disinfectant Refill 5 litres ..... £21.95 bottle

CONTINU DENTAL INSTRUMENT CLEANER

- HTM 01-05 says that "effective cleaning of dental instruments before sterilisation is of the utmost importance to reduce the risk of transmission of infectious agents"
- The Continu Dental Instrument Cleaner is a concentrated solution that should be diluted to 5%
- It is ideal for pre-cleaning instruments as it is so gentle that it will not damage equipment but the surfactant is sufficiently powerful to remove debris
- HTM 01-05 states, "Alcohol has been shown to bind blood and protein to stainless steel The use of alcohol with dental instruments should therefore be avoided."
- The Continu Instrument cleaner has been shown in tests against leading alcohol based alternatives to eliminate protein from surfaces
- Available in a 1 litre bottle with measuring cap that delivers 20 litres of cleaning solution or a cost effective 5 litre refill that produces 100 litres, the Instrument Cleaner is for use on dental equipment

NU017 Concentrate 1 litre (make 20 litres) ..... £14.95 bottle
NU018 Concentrate 5 litres (make 100 litres) .... £47.95 bottle

CONTINU FLOOR CLEANER

- 2 in 1 cleaner and floor disinfectant
- One 5 litre bottle concentrate makes 20 litres of cleaning product
- Cost effective alternative to bleach based detergents
- Independently tested against bacterial, fungicidal and virucidal activity to exceed European Standards

HAHNENKRATT CONTEC ROOT POST SYSTEM

Contec is designed for roots with rather conical shape.
The shape is designed with two different tapers and follows the natural shape of the root canal

- Utmost bending strength HT-Glassfiber: 1.678MPa *(Determined accordingly to EN ISO 178)*
- Utmost fatigue and fracture resistance
- Homogeneity due to dentin-like elasticity
- Safe adhesion due to micro-retentive surface
- Effective, sharp cutting burs
- High radiopacity

- Pre-arranging saves set up time
- Dense blue polyurethane foam 3" (7.5 cm) long

802 Peel-N-Stick Endo Cushion
50 pcs/pack ... £18.95

HOLLOW HANDLE micro applicators

In an effort to limit the environmental effect of one of the most used items in a dental surgery we came up with some great ideas:

1. 45% less plastic used in each hollow handle applicator than our standard micro applicator, due to the hollow design of the handle.
2. Instead of using new plastic, we use 100% recycled plastic for the brush tip and 50% recycled plastic for the hollow handle. This recycled plastic is made using waste materials left over from our other manufacturing processes.
3. No more plastic tube that can use up to a third of the amount of plastic as the actual product - just a 100% recyclable box.

- **Bends into any angle for the placement of small controlled amounts of material in limited access areas.**
- **Economical - saving up to 80% by the reduction of excess materials used.**

Hollow Handle Micro Applicators	*100 pcs box*	*10 x 100 pcs box*
(Length 100 mm, dia 3 mm handles)		
HH-901 Regular (dia. 2.5 mm) Light Green	*£5.95*	*£35.00*

HH-903 Ultra Fine (dia. 1.5 mm) Dark Green	*£5.95*	*£35.00*

mini micro applicators

In an effort to limit the environmental effect of one of the most used items in a dental surgery we came up with some great ideas:

1. We designed the handle to be a smaller, more practical size that reduces the amount of plastic used by 50% in comparison to our standard micro applicators.
2. Instead of new plastic, we used 100% recycled plastic. This recycled plastic is made using waste materials from our other manufacturing processes.
3. No more plastic tube that can use up to a third of the amount of plastic as the actual product - just a 100% recyclable box.

- **Bends into any angle for the placement of small controlled amounts of material in limited access areas.**
- **Economical - saving up to 80% by the reduction of excess materials used.**

micro applicator tips

Our most environmentally friendly micro applicators:

1. By using a micro applicator tip with a reusable handle, you can reduce the amount the plastic that you would normally use by 80% when compared to a standard micro applicator.
2. Using an autoclavable handle saves plastic. Clean it, autoclave it and re-use it. Simple and effective.
3. Our micro applicator tips are packaged in a 100% recyclable cardboard box. Recycling can prevent pollution by reducing the need to collect new raw materials.
4. Instead of using new plastic for the micro applicator tips, we use 100% recycled plastic. The recycled plastic is made using waste materials from our other manufacturing processes.

- **For the placement of small controlled amounts of material in limited access areas.**
- **Economical - saving up to 80% by the reduction of excess materials used.**

Terms and Conditions

All prices shown are VAT exclusive. All prices, including delivery, special deals and products are subject to change without prior notice. Premium Plus reserves the right to correct errors and omissions in any of our advertising (paper or electronic). Catalogues (prices and specials) will be deemed to be superseded on the issue of the most recent catalogue/ flyer. Goods will not be accepted for return without prior authorisation. Customers must notify Premium Plus of a return within 7 days from the date of delivery. Returned goods received after this time or without prior authorisation may not be accepted. Costs incurred for the return of goods will be at the Customers expense, except in cases of incorrectly supplied or faulty goods. Returned goods must be in a re-saleable condition (inclusive of all original packaging, unopened and unused). Credit accounts are due strictly 30 days from the invoice date. In the event that the Customer fails to pay any monies by the due date, interest may be charged at the rate of 2% interest per month. The Customer is liable for all costs incurred by Premium Plus in the recovery of any debt, including legal fees and any other associated costs. Premium Plus retains ownership of the goods until they are paid in full. Premium Plus shall endeavour to dispatch all orders received before 3pm for either next working day delivery or 1st Class Post dependant on order weight and value. However, delivery dates and times specified are approximate only. Premium Plus cannot guarantee delivery times and will not be held liable or responsible if any timeframes cannot be met. Substitute goods may be supplied when those ordered are unavailable. Equipment warranties are as stated in catalogues/flyers or instructions and are considered void if not used as per instructions, or considered to be mistreated / incorrectly serviced or cared for.

Terms and conditions will be provided prior to opening an account and will be deemed to be accepted once the account has been opened. To view our full Terms & Conditions, Privacy Policy, Delivery and Returns policies please visit our website at www.premiumplusuk.com or contact us by phone or email.
