# the barrier range

A complete range of sleeves  
to provide barrier protection  
in today's modern surgery.

# our barrier range

**A major area of risk in the spreading of infectious disease is directly related to surfaces in a dental practice.**

Our disposable barrier sleeves are designed using an impermeable, soft, pliable plastic that prevents bacteria and infection from passing through the material. Our wide range comes in all shapes and sizes to fit your needs and reduce cross contamination in the practice.

# Avoiding cross contamination

There are two effective methods of avoiding cross contamination of surfaces in a dental surgery. Surfaces must either be cleaned and disinfected after each patient or session or barrier sleeves must be applied over all surfaces to prevent the surface from being contaminated in the first instance. When a surface is difficult to clean with a chemical spray or wipe, the application of barrier sleeves could be a more useful solution. Barrier sleeves can limit the number of surfaces that must be cleaned and disinfected between patients, by providing an impermeable barrier against contamination, which can then be quickly and easily disposed. This saves time for dental staff, which is vitally important within a busy schedule.

## Barrier sleeves are especially useful in dentistry, in circumstances where:

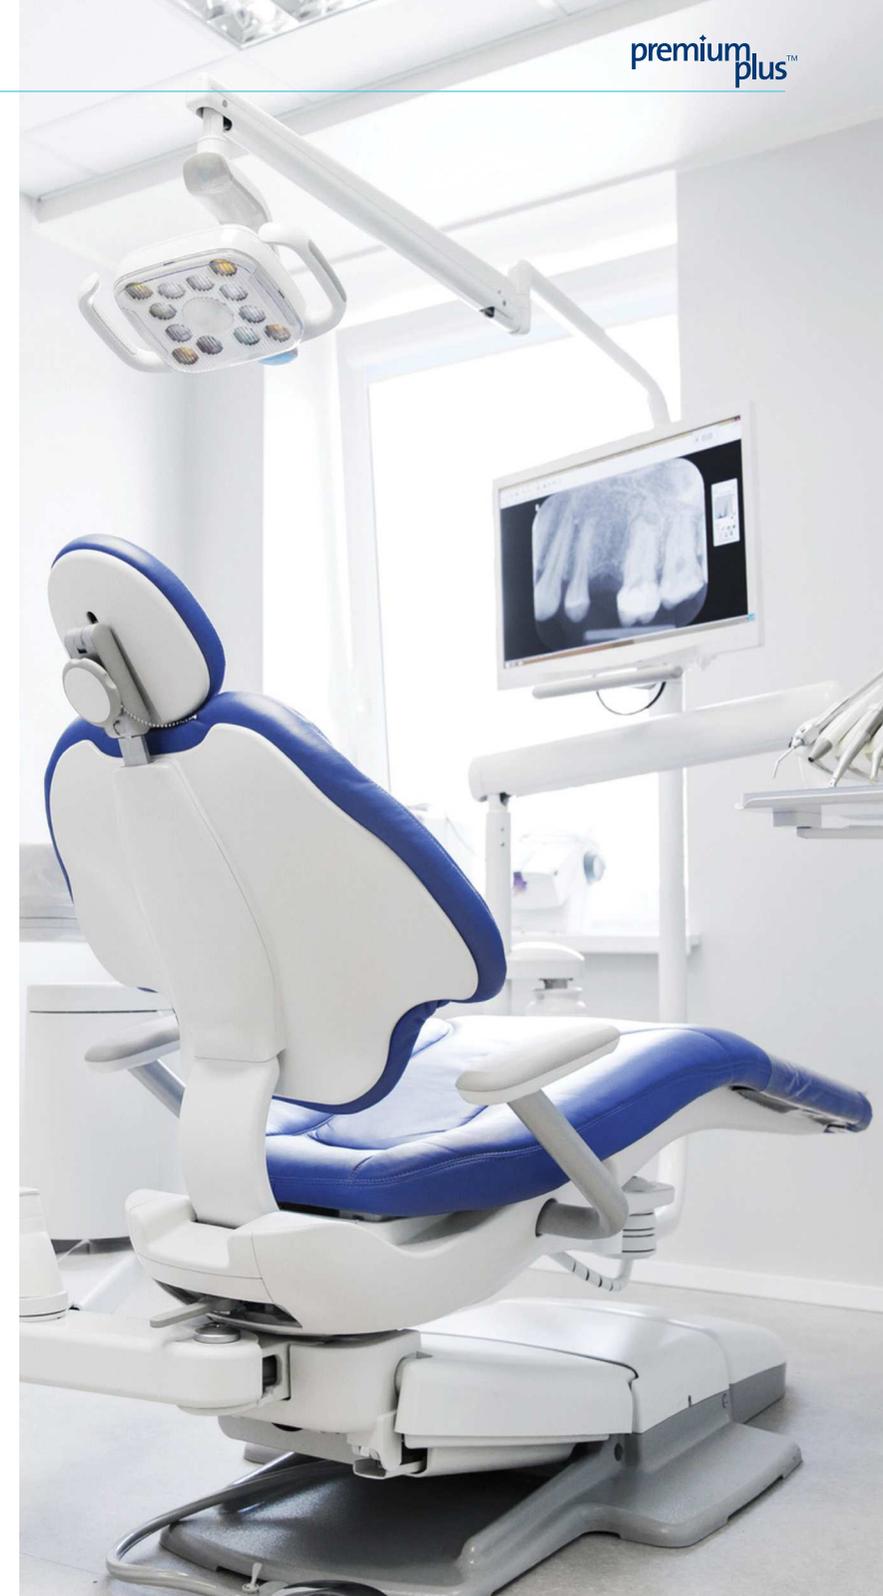

- surfaces are frequently touched by professionals wearing gloves;
- surfaces are likely to be contaminated by blood or other potentially infectious fluids; and
- there are areas in the surgery that are difficult to clean and disinfect (for example, in between the keys on keyboards, or chair control panels).

Dentists may also find that their advanced medical equipment is unable to be immersed in water to be cleaned or sterilised due to their complex design. Using barrier sleeves is an excellent and effective method to protect this equipment from harsh chemicals and ensure the longevity of the device.

## Barrier sleeves offer many advantages within a dental practice:

- reduces the risk of cross contamination in the surgery, protecting staff & patients;
- reducing cleaning and disinfection times between patients;
- increasing the longevity of surfaces due to the reduction of chemical cleaning required;
- preventing contamination in areas that are difficult to clean;
- barriers are single use and can easily be removed and replaced in between patient treatments.

\*All information derived from Molinari & Nelson. Protective Environment Surface Barriers in Health Care. The Dental Advisor 2016.

## Using barrier sleeves

### Before application

Surfaces and equipment should be inspected for damage or contamination. If required, surface should be cleaned and disinfected.

### Application

Surfaces and equipment should be covered with barrier sleeves of appropriate design and size. The barrier should fully cover the surface and should be secure enough so that when the surface or equipment is in use, the surface will not be exposed.

### After each patient

Wearing gloves, the barrier sleeve should be carefully removed and disposed of using an aseptic technique. Any surfaces which came into contact with a patient should be cleaned and disinfected.

Any surfaces underneath the barrier sleeve which became infected should be cleaned and disinfected. The used gloves should be removed and replaced before new barrier sleeves are applied.

### After each session

Clean and disinfect all surfaces according to national government policy. Ensure that appropriate personal protective equipment is worn during the cleaning and disinfection process.

\* All information derived from Environmental Asepsis Using Barriers. Kerr TotalCare 2015.

## syringe / HVE sleeves

Used for 3 way syringes, saliva ejectors and HVE valves.  
Pre-cut opening for easy application. Available in Blue and Clear.  
500 pieces / box

**100B Blue**

**100C Clear**

## instrument tray sleeves

Instruments can be placed directly on top of the sleeve.  
500 pieces / box

**101 Standard 'B'**

**102 Mini 'F'**

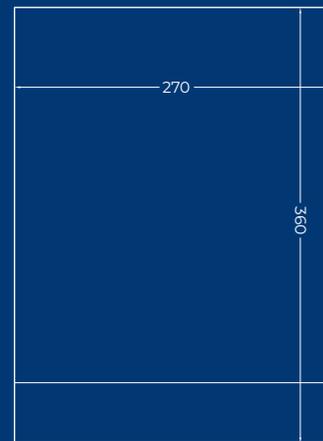

**190 Standard ISO**

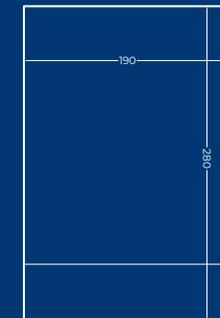

**100B Blue** 26 cm x 6.5 cm

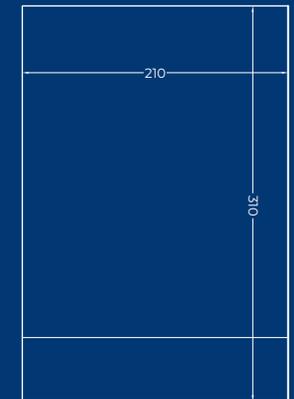

**100C Clear** 26 cm x 6.5 cm

**101 Standard 'B'** 36 cm x 27 cm

**102 Mini 'F'** 28 cm x 19 cm

**190 Standard ISO** 31 cm x 21 cm

# pen and handpiece sleeves

Used with pens, handpieces, and ultrasonic scalers.

500 pieces / box

104L Low Speed / Universal Large

104L Low Speed / Universal Large

104S Low Speed / Universal Slim

103 Pen Shaped Instrument

# impression gun sleeves

Sleeve covers cartridge and handle.

Provides protections against cartridge failure or leakage.

500 pieces / box

107 Universal

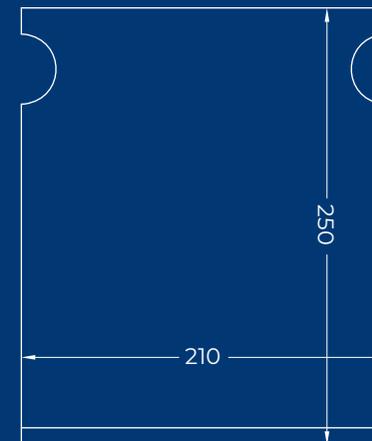

104L Low Speed / Universal Large 22 cm x 4 cm

104S Low Speed / Universal Slim 22 cm x 3.8 cm

103 Pen Shaped Instrument 22 cm x 2.4 cm

107 Universal 25 cm x 21 cm

## x-ray sleeves

For coverage of x-ray units.  
250 pieces / box

109 Large

## chair/stool sleeves

Eliminates the need for separate headrest covers. Prolongs the life of valuable chairs and stools by avoiding direct contact with harmful disinfectants and aerosols.

125 pieces / box

111 Full Chair

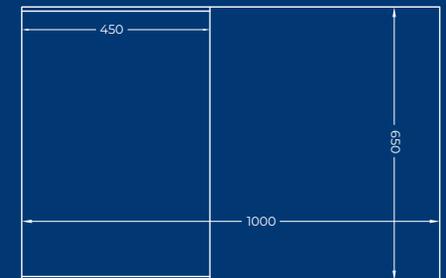

108 Small 60 cm x 20 cm + 17 cm

109 Large 75 cm x 35 cm + 24 cm

111 Full Chair 180 cm x 72 cm

112 Half Chair/Stool 100 cm x 65 cm

# headrest sleeves

Creates a clean surface for patients to rest their head while in a chair.  
500 pieces / box

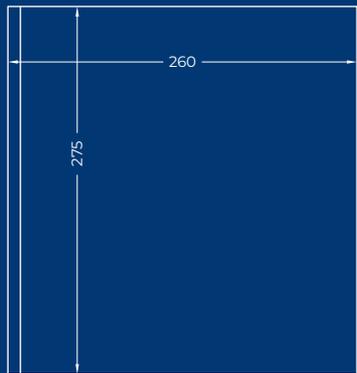

114 Large

# tubing sleeves

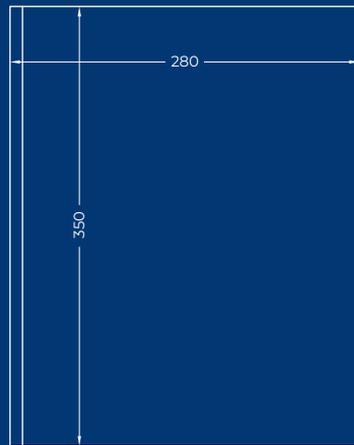

For straight and coiled tubing.  
366 metres / roll (1,200 ft)

118 Tubing sleeve for straight tubing

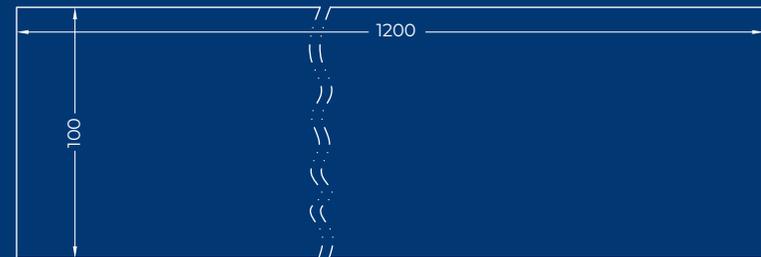

113 Small 27.5 cm x 26 cm

114 Large 35 cm x 28 cm

118 Tubing sleeve for straight tubing 2" / 5 cm wide

119 Tubing Sleeve for coiled tubing 4" / 10 cm wide

# curing light sleeves

A sleeve for every style of curing light.

500 pieces / box

**123XL Extra Large**

**123L Large**

**123S Small**

**123SS Small Short**

**123XL Extra Large** 38 cm x 7.2 cm

**123L Large** 35 cm x 6.5 cm

**123S Small** 32 cm x 5 cm

**123SS Small Short** 28 cm x 5 cm

# intra oral camera/curing light sleeves

Available in a wide range of sizes to fit most curing lights and intraoral cameras on the market.  
500 pieces / box

125SS Short

125 Standard

228 Mini Short

125SS Short 28 cm x 4,9 cm

125 Standard 32 cm x 4,9 cm

228 Mini Short 25 cm x 3,8 cm

# peel-n-stick light guide sleeves

The peel-off tab ensures that the light guide can be fully enclosed and sealed off by the barrier sleeve.  
200 pieces / box

128 Small

129 Large

# pc mouse sleeves

Two sizes available for either corded or cordless optical mice.  
500 pieces / box

133S Small

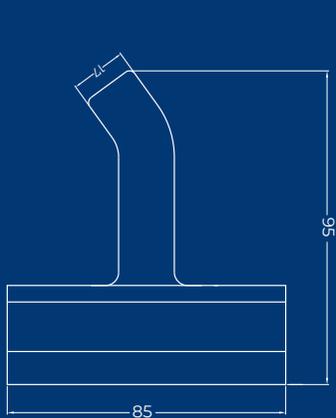

133L Large

# mouth mirror sleeves

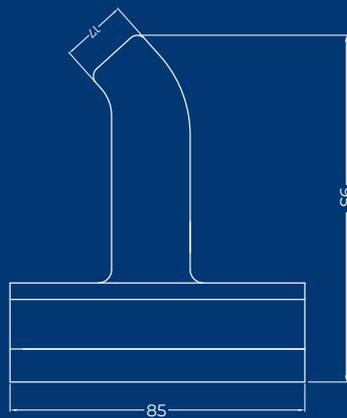

Made from very supple poly plastic for greater tactile feel.  
500 pieces / box

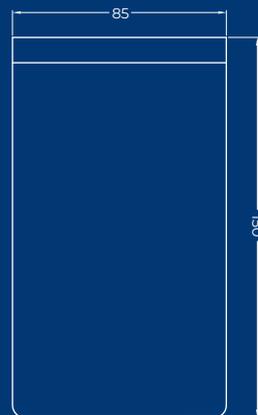

140XS Extra Small

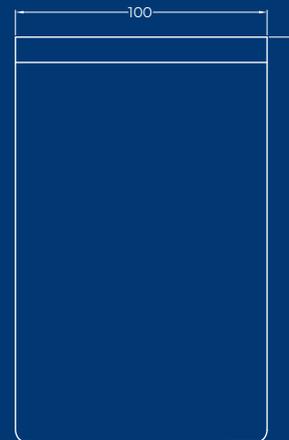

128 Small (fits 7-8 mm light guide)

129 Large (fits 9-11 mm light guide)

133S Small 15 cm x 8.5 cm

133L Large 16 cm x 10 cm

140XS Extra Small 20 cm x 3.8 cm

# flowable composite syringe sleeves

Also suitable for other flowable materials which use a syringe and applicator tip, such as etchants, sealants, and cavity liners. 200 pieces / box

138 Universal

# t-style light handle sleeves

Universal sizing to fit most t-style handles. 500 pieces / box

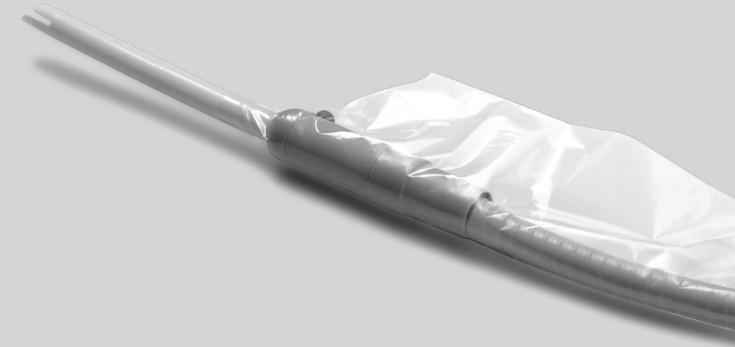

106 T-Shape

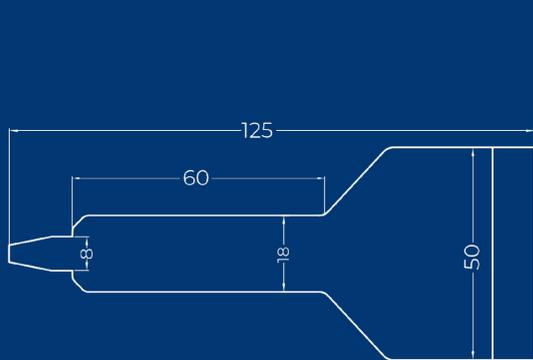

136 Rectangular

# HVE suction tube sleeves

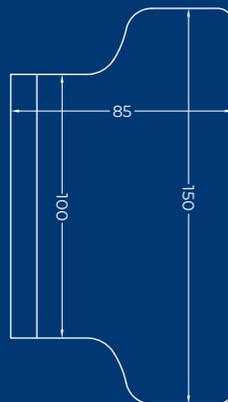

Pre-cut for easier application. 500 pieces / box

135S Small

138 Universal 12.5 cm x 5 cm

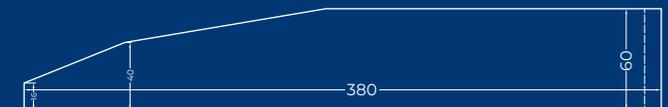

106 T-Shape 15 cm x 8.5 / 10 cm

136 Rectangular 15 cm x 10 cm

135S Small (for 11 mm tube) 36 cm x 5.5 cm

135L Large (for 16 mm tube) 38 cm x 6 cm

# x-ray sensor sleeves

Excellent protection for valuable x-ray sensors. Our x-ray sensor sleeves are compatible with almost all x-ray systems.  
500 pieces / box

Standard Sensor Sleeve

Two Step Sensor Sleeves

140XS Extra Small 20 cm x 3.8 cm

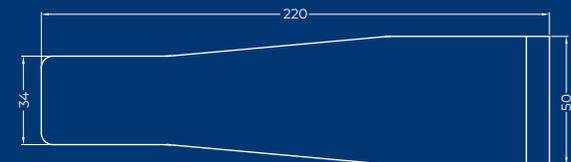

140S Small 20 cm x 4.2 cm

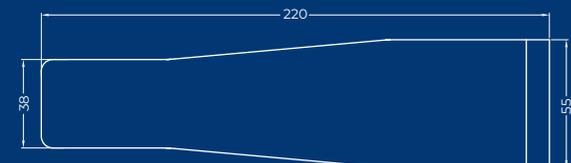

140M Medium 20 cm x 4.5 cm

140L Large 25 cm x 6 cm

183-1 Size 1 22 cm x 3.4 cm / 5 cm

183-2 Size 2 22 cm x 3.8 cm / 5.5 cm

## bite block sleeves

Sheaths for 3D bite blocks.  
1000 pieces / box

**145 Universal**

## keyboard sleeves

Provides protection from cross contamination without interfering with the movement of the keys.

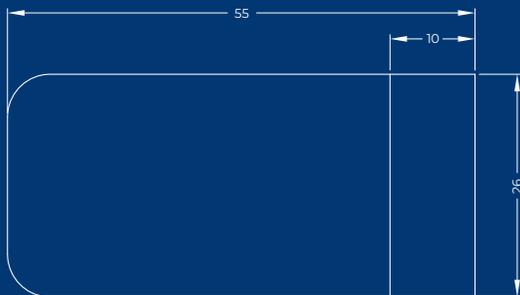

**158S Standard**

**158M Medium**

**158L Large**

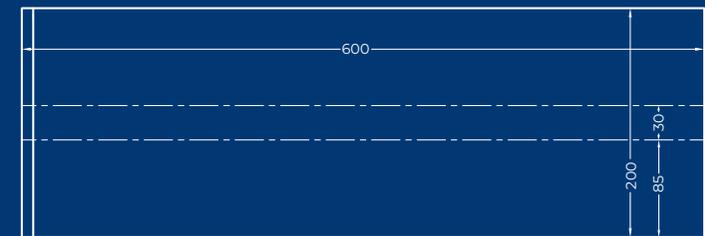

**145 Universal** 5.5 cm x 2.6 cm

**158S Standard** 55 cm x 16 cm (500 pieces / box)

**158M Medium** 55 cm x 21.5 cm (250 pieces / box)

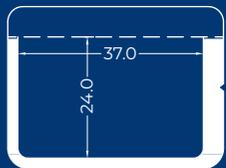

**108 Large** 60 cm x 20 cm + 17 cm (250 pieces / box)

# psp barrier envelopes

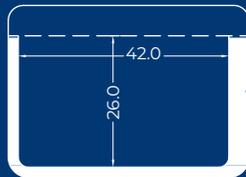

Light protection covers designed to fit the most popular phosphor plates.  
Made from soft vinyl with rounded corners, the quick tear-off opening makes  
them ideal for every day use in a surgery. All measurements are internal dimensions.

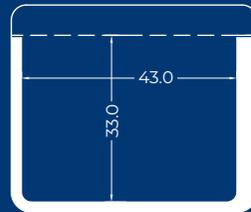

Dürr® Type Mid-Opening Barrier Envelopes

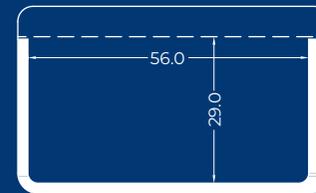

**188-0 Size 0**  
37 mm x 24 mm  
(100 pieces / box)

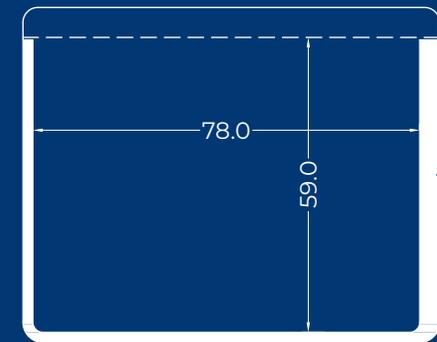

**188-1 Size 1**  
42 mm x 26 mm  
(100 pieces / box)

**188-2 Size 2**  
43 mm x 33 mm  
(100 pieces / box)

**188-3 Size 3**  
56 mm x 29 mm  
(50 pieces / box)

**188-4 Size 4**  
78 mm x 59 mm  
(50 pieces / box)

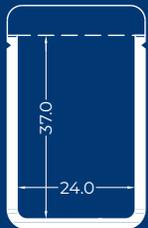

Dürr® Type Top-Opening Barrier Envelopes

Digora® (Soredex® Type) Top-Opening Barrier Envelopes

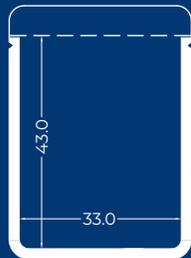

Kodak® (Carestream® Type) Top-Opening Barrier Envelopes

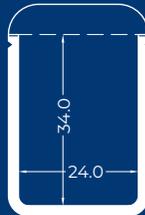

**198-0 Size 0**  
24mm x 37mm  
(100 pieces / box)

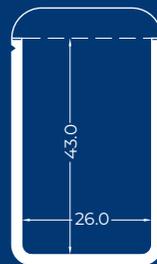

**198-1 Size 1**  
26mm x 42mm  
(100 pieces / box)

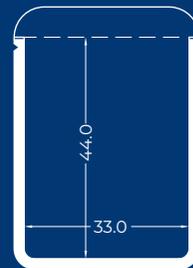

**198-2 Size 2**  
33mm x 43mm  
(100 pieces / box)

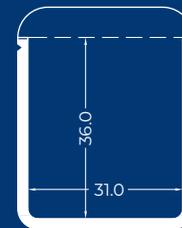

**189-0 Size 0**  
24mm x 34mm  
(100 pieces / box)

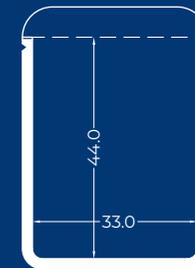

**189-1 Size 1**  
26mm x 43mm  
(100 pieces / box)

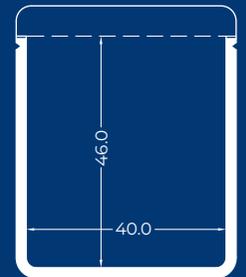

**189-2 Size 2**  
33mm x 44mm  
(100 pieces / box)

**199-0 Size 0**  
31mm x 36mm  
(100 pieces / box)

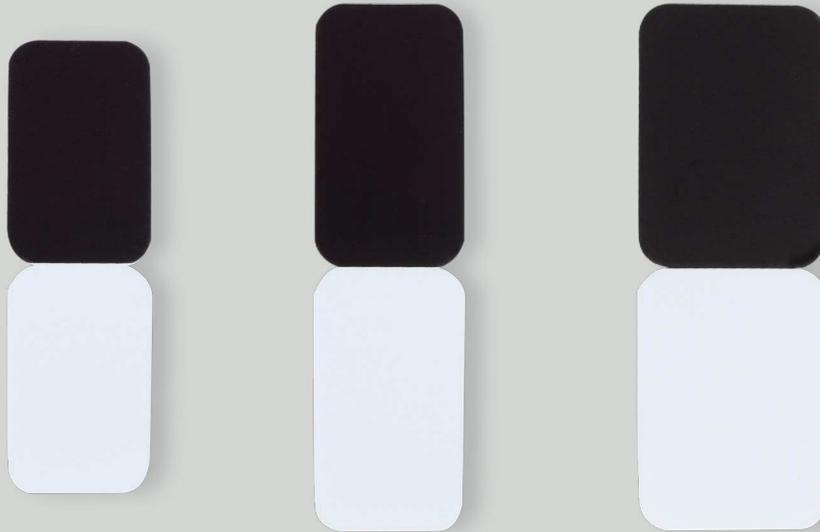

**199-1 Size 1**  
33mm x 44mm  
(100 pieces / box)

**199-2 Size 2**  
40mm x 46mm  
(100 pieces / box)

## protective paper cover

Paper covers designed to protect phosphor plates when placed inside a barrier envelope.  
100 pieces / box

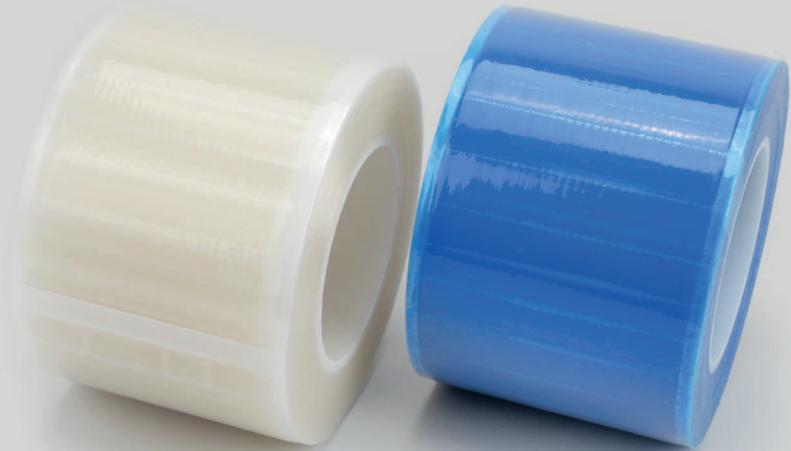

**178-0** Size 0

**178-1** Size 1

**178-2** Size 2

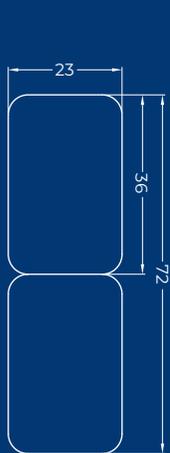

## barrier film

With non-adhesive edge for quick removal. Our barrier film leaves no residue when removed.  
1200 pieces / roll

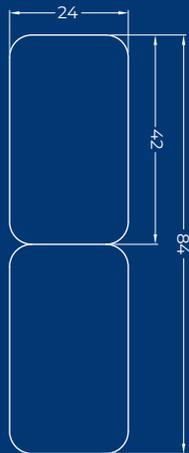

**8008C** Clear

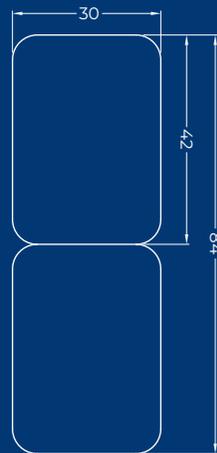

**8008B** Blue

**178-0 Size 0** 2 x 23 mm x 36 mm

**178-1 Size 1** 2 x 24 mm x 42 mm

**178-2 Size 2** 2 x 30 mm x 42 mm

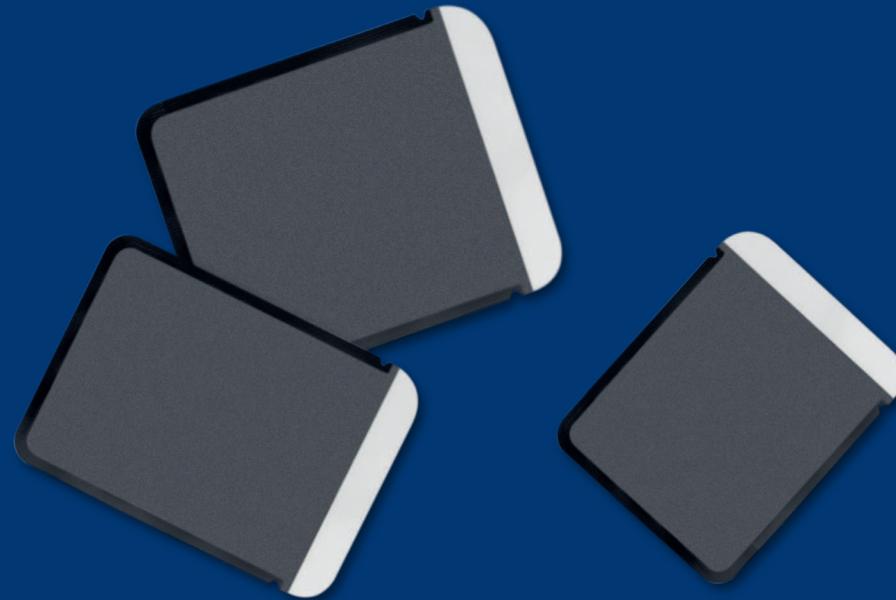

**8008C Clear / 8008B Blue** 10 cm x 15 cm
